NOTICE: The product specifications appearing herein supersede and cancel all previous sheets, supplements and addenda, and represent current manufacturing standards and procedures.

Armstrong Cabinet Products reserves the right to make specification changes for continued product improvement.

For aesthetic considerations the furniture and cabinet industries have made veneer on composite panel substrate the standard method of construction for raised panel-in-frame doors in some wood species. Within the Armstrong Cabinet Products product line, those species include oak, birch and maple.

BRANFORD™ — 007

- Standard reveal door style (1/2" overlay)
- Recessed flat panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Door frame has double step rolled edge
- Square design for all cabinets
- Doors are slightly beveled top and bottom so hardware is optional

OAK DOORS

Oak is a strong open grained hardwood that has a range in color of white, yellow and pink. Oak is sometimes streaked with green, yellow and black mineral deposits and may contain some wide grain. These variations are considered part of the inherent beauty of the product.

STANDARD FINISHES:

Bordeaux
Chestnut
Crystal
Honey
Mocha
Pearl
Wheat

HAMPTON™ — 002

- Standard reveal door style (1/2" overlay)
- Raised panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Door frame has double step rolled edge
- Square design for all cabinets
- Doors are slightly beveled top and bottom so hardware is optional

HAMPTON™ ARCH — 004

- Standard reveal door style (1/2" overlay)
- Raised panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Door frame has double step rolled edge
- Cathedral arch design wall cabinets with square design base cabinets
- Doors are slightly beveled top and bottom so hardware is optional

NOTICE: For aesthetic considerations the furniture and cabinet industries have made veneer on composite panel substrate a standard method of construction for raised panel-in-frame doors in some wood species. Within the Armstrong Cabinet Products' product line those species include oak, birch and maple.

DECORATIVE HARDWARE:

Decorative hardware is available as an option. Full overlay door styles require decorative hardware to open some doors and drawers. Decorative hardware is sold separately. See available decorative hardware collection.

www.armstrong.com

MAPLE DOORS

Maple is a strong close grain hardwood that is predominantly off-white in color; although it also contains light hues of yellow-brown and pink. Maple occasionally contains light tan or small dark mineral streaks. These variations are considered part of the inherent beauty of the product.

- STANDARD FINISHES:**
- Bordeaux
 - Café
 - Espresso
 - Mocha
 - Natural
 - Pearl
 - Toffee

BERKSHIRE™ — 043

- Standard reveal door style (1/2" overlay)
- Raised panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Double waterfall inner and outer door frame profile
- Square design for all cabinets
- Doors are slightly beveled top and bottom so hardware is optional

BERKSHIRE™ ARCH — 044

- Standard reveal door style (1/2" overlay)
- Raised panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Double waterfall inner and outer door frame profile
- Eyebrow arch design wall cabinets with square design base cabinets
- Doors are slightly beveled top and bottom so hardware is optional

CARUTH™ — 041

- Standard reveal door style (1/2" overlay)
- Recessed flat panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Double waterfall inner and outer door frame profile
- Square design for all cabinets
- Doors are slightly beveled top and bottom so hardware is optional

MODERNO™ — 069

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- 3/4" thick solid flat panel door and drawers
- Eased outer edge profile on doors and drawers
- Square design for all cabinets
- Decorative hardware is required

RUTLEDGE™ — 020

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Recessed, Shaker style flat panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Square design for all cabinets
- Decorative hardware is required

TIARA™ — 042

- Full overlay door style (1-3/8" overlay / 1/8" reveal)
- Raised panel-in-frame
- 3/4" thick solid stiles and rails
- Five piece door is assembled with mortise and tenon joints
- Door frame has double step edge with radius and square profile
- Square design for all cabinets
- Decorative hardware is required

TIARA™ ARCH — 034

- Full overlay door style (1-3/8" overlay / 1/8" reveal)
- Raised panel-in-frame
- 3/4" thick solid stiles and rails
- Five piece door is assembled with mortise and tenon joints
- Door frame has double step edge with radius and square profile
- Eyebrow arch design wall cabinets and square design base cabinets
- Decorative hardware is required

TOWN&COUNTRY™ — 026

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Reversed raised solid flat panel-in-frame center panel
- 3/4" thick stiles and rails
- Five piece door and drawer is assembled with mortise and tenon joints
- Beaded V-groove vertical lines are enhanced with glazed finish
- Square design for all cabinets
- Decorative hardware is required

WAVERLY™ — 060

- Full overlay door style (1-3/8" overlay / 1/8" reveal)
- Raised panel-in-frame
- 3/4" thick solid stiles and rails
- Five piece door and drawer fronts are assembled with mortise and tenon joints
- Door frame has double step edge with radius and square profile that enhance the attributes of glaze finish
- Square design for all cabinets
- Decorative hardware is required

WAVERLY™ ARCH — 061

- Full overlay door style (1-3/8" overlay / 1/8" reveal)
- Raised panel-in-frame
- 3/4" thick solid stiles and rails
- Five piece door and drawer fronts are assembled with mortise and tenon joints
- Door frame has double step edge with radius and square profile that enhance the attributes of glaze finish
- Eyebrow arch design wall cabinets and square design base cabinets

ARBORCREST™ — 012

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Reversed raised solid flat panel-in-frame center panel
- 3/4" thick stiles and rails
- Five piece door and drawer is assembled with mortise and tenon joints
- Square design for all cabinets
- Decorative hardware is required

CIMARRON™ — 045

- Standard reveal door style (1/2" overlay)
- Raised panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Double waterfall inner and outer door frame profile
- Square design for all cabinets
- Doors are slightly beveled top and bottom so hardware is optional

CIMARRON™ ARCH — 046

- Standard reveal door style (1/2" overlay)
- Raised panel-in-frame
- 3/4" thick solid door frame
- Five piece door is assembled with mortise and tenon joints
- Double waterfall inner and outer door frame profile
- Eyebrow arch design wall cabinets with square design base cabinets
- Doors are slightly beveled top and bottom so hardware is optional

LACERISE™ — 011

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Raised panel-in-frame
- 3/4" thick stiles and rails with a solid center panel
- Five piece door and drawer are assembled with mortise and tenon joints
- Double step solid raised center panel and inner frame profile that enhance the attributes of glaze finish
- Square design for all cabinets
- Decorative hardware is required

LACERISE™ ARCH — 013

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Raised panel-in-frame
- 3/4" thick stiles and rails with a solid center panel
- Five piece door and drawer are assembled with mortise and tenon joints
- Double step solid raised center panel and inner frame profile that enhance the attributes of glaze finish
- Eyebrow arch design wall cabinets and square design base cabinets
- Decorative hardware is required

OLYMPUS™ — 054

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Raised panel-in-frame
- 3/4" thick stiles and rails with a solid center panel
- Five piece door is assembled with mortise and tenon joints
- Double step solid raised center panel and inner frame profile
- Square design for all cabinets
- Decorative hardware is required

LAMINATE DOORS

Low pressure melamine laminate on two faces of particleboard core. Overall 5/8" thick matching vinyl edgeband, soft formed radius or wood pull applied to all other edge surfaces.

STANDARD FINISHES:
Maple Crystal
Maple Tahoe
White

Meridian Available with
Chestnut Door Pulls
Honey Door Pulls
Crystal Door Pulls
Tahoe Door Pulls

DECORATIVE HARDWARE:
Decorative hardware is available as an option. Full overlay door styles require decorative hardware to open some doors and drawers. Decorative hardware is sold separately. See available decorative hardware collection.

ALTAIR™ — 028

- Standard reveal door style (1/2" overlay)
- Flat panel profile
- 5/8" overall thickness
- Low pressure melamine on two faces of particleboard core
- Vinyl edgeband applied to two vertical square cut edges
- Top and bottom edges are radiused shaped
- Decorative hardware is optional

MERIDIAN™ — 047

- Standard reveal door style (1/2" overlay)
- Flat panel profile
- 5/8" overall thickness
- Low pressure melamine on two faces of particleboard core
- Vinyl edgeband applied to three square cut edges
- Fourth edge is solid alder wood door and drawer pull
- Decorative hardware is not needed

SHASTA™ II — 038

- Full overlay door style (1-1/4" overlay / 1/4" reveal)
- Flat panel profile
- 5/8" overall thickness
- Low pressure melamine on two faces of particleboard core
- Vinyl edgeband applied to four square cut edges
- Decorative hardware is required

QUADRIC™ — 031

- Full overlay door style (1-3/8" overlay / 1/8" reveal)
- 3/4" overall thickness
- Rigid vinyl thermofoil, bonded under heat and pressure or vacuum formed on face and four edges to MDF core
- Double step rolled edge on inner and outer door profile
- Doors and drawer fronts have been routed to give a square raised panel-in-frame appearance
- Low pressure melamine on back
- Decorative hardware is required

SUMMIT HILL™ — 081

- Full overlay door style (1-1/4" overlay / 1/4" Reveal)
- 5/8" overall thickness
- Rigid vinyl thermofoil, bonded under heat and pressure or vacuum formed on face and four edges to MDF core
- Double step rolled edge on inner and outer door profile
- Doors and drawer fronts have been routed to give a raised panel-in-frame appearance
- Low pressure melamine on back
- Decorative hardware is required

THERMOFOIL DOORS

Rigid vinyl thermofoil, bonded under heat and pressure (vacuum formed) on face and four edges of MDF (Medium Density Fiberboard) core which has been routed to give a raised panel-in-frame appearance. Low pressure white melamine on back.

STANDARD FINISHES:

White

DECORATIVE HARDWARE:

Decorative hardware is available as an option. Full overlay door styles require decorative hardware to open some doors and drawers. Decorative hardware is sold separately. See available decorative hardware collection.

PREMIER SPECIFICATIONS

PREMIER SERIES CABINET SPECIFICATIONS

FRONT FRAME:	3/4" Thick kiln dried solid hardwood (wood door styles) or thermofoil vinyl wrapped solid finger jointed lumber or LVL linear veneer lumber (thermofoil and laminate door styles). Mortise and tenon or bore and dowel construction frame joinery reinforced with glue and nail. Stiles 1 1/2" wide. Mulls 3" wide. Rails 1 3/4" wide. Stiles and top and bottom rails dadoed to receive ends, tops and bottoms.
END PANELS:	
Standard:	Nominal 1/2" thick (12mm) industrial grade, wood based composite panel dadoed to receive tops and bottoms, with wood grained or white laminate on exterior surface. Maple grained or white laminate on interior surface. All end panels are inserted into dado in face frame and recessed 3/16".
Upgrade Option:	Nominal 1/2" thick (12mm) multi-ply hardwood plywood with oak, maple or cherry veneer on exterior surface and birch veneer on interior surface. All end panels are constructed with the same dado joinery as above and are recessed 3/16".
TOP/BOTTOM PANELS:	Nominal 1/2" thick (12mm) Industrial grade, wood based composite panel with maple grained or white laminate on exterior and interior surfaces for wall cabinets and interior surface for base cabinets.
HANGING RAILS:	Wall cabinets have nominal 3/4" thick (18mm) x 3" high multi-ply hardwood plywood or 3/4" thick x 3 7/16" high solid lumber with white laminate. Each is running full cabinet length at the top and bottom. Base cabinets have a nominal 1/2" thick (12mm) x 3" high industrial grade composite panel with maple grained or white laminate at the top.
BACK PANEL:	1/8" Hardboard with maple grained or white interior surface.
SHELVES:	Nominal 5/8" thick (15mm) industrial grade wood based composite panel with maple grained or white laminate on both faces and matching edgeband on facing edge. Shelves are adjustable in all standard wall and base cabinets.
TOE KICK:	Nominal 1/2" thick (12mm) industrial grade, unfinished wood based composite panel captured between end panels.
BASE CORNER BRACES:	High impact, injection molded plastic.
DRAWERS: (Standard)	Nominal 1/2" thick (12 mm) solid wood front, back and sides. Drawer bottoms are multi-ply hardwood plywood inserted into dado in front, back and sides. All drawer parts glued and stapled together.
DRAWER GUIDES:	High quality epoxy coated steel, Cushion-Tec, side mounted guides, self adjusting in mounting brackets. Built-in stop, self-closing and stay-closed features with a 100 lb. rated load capacity.
DOVETAIL DRAWER: (Upgrade only)	Front, back and sides are nominal 3/4" thick (19 mm) solid beech hardwood with dovetail construction. Drawer bottoms are nominal 3/16" (5 mm) multi-ply hardwood birch plywood inserted into dado in front, back and sides. Drawer bottoms are glued and stapled to sides.
UNDERMOUNT DRAWER GUIDE: (Standard with dovetail drawer only)	High quality steel, undermount construction provides full drawer access. Self adjusting in mounting brackets. Built-in stop, self-closing and stay closed features with a 75 lb. rated load capacity.
SOFT-CLOSE UNDERMOUNT DRAWER GUIDE: (Deluxe upgrade with dovetail drawer only)	High quality steel, undermount construction provides soft-close feature that helps reduce drawer slamming. Drawers are full extension, self adjusting in mounting brackets. Built-in stop, self-closing and stay closed features with a 100 lb. rated load capacity.
HINGES:	
Standard:	Heavy duty, high quality steel, concealed 6-way adjustable hinge with self-closing feature.
Optional:	High quality steel wrap-around hinge with self closing feature. (Standard reveal door styles only)
FINISH:	Furniture quality protective finish system on doors, drawer fronts, front frames and veneer plywood end panels consisting of sanding, stain, catalyzed sealer and catalyzed clear top coats.

PREMIER SERIES CABINET SPECIFICATIONS

HANGING RAILS - Wall cabinets have nominal 3/4" thick (18mm) x 3" high multi-ply hardwood plywood or 3/4" thick x 3 7/16" high solid lumber with white laminate. Each is running full cabinet length at the top and bottom. Base cabinets have a nominal 1/2" thick (12mm) x 3" high industrial grade composite panel with maple grained or white laminate at the top.

BACK PANELS - 1/8" Hardboard with maple grained or white interior surface. Securely glued and stapled to end panels and hang rails.

TOP/BOTTOM PANELS - Nominal 1/2" thick (12mm) Industrial grade, wood based composite panel with maple grained or white laminate on exterior and interior surfaces for wall cabinets and interior surface for base cabinets.

SHELVES - Nominal 5/8" thick (15mm) industrial grade wood based composite panel with maple grained or white laminate on both faces and matching edgeband on facing edge. Shelves are adjustable in all standard wall and base cabinets.

END PANELS -

STANDARD: Nominal 1/2" thick (12mm) industrial grade, wood based composite panel dadoed to receive tops and bottoms, with wood grained or white laminate on exterior surface. Maple grained or white laminate on interior surface. All end panels are inserted into dado in face frame and recessed 3/16".

UPGRADE OPTION: Nominal 1/2" thick (12mm) multi-ply hardwood plywood with oak, maple or cherry veneer on exterior surface and birch veneer on interior surface. All end panels are constructed with the same dado joinery as above and are recessed 3/16".

FRONT FRAME - 3/4" Thick kiln dried solid hardwood (wood door styles) or thermofoil vinyl wrapped solid finger jointed lumber or LVL linear veneer lumber (thermofoil and laminate door styles). Mortise and tenon or bore and dowel construction frame joinery reinforced with glue and nail. Stiles 1 1/2" wide. Mulls 3" wide. Rails 1 3/4" wide. Stiles and top and bottom rails dadoed to receive ends, tops and bottoms.

BASE CORNER BRACES - High impact, injection molded plastic.

TOE KICK - Nominal 1/2" thick (12mm) industrial grade, unfinished wood based composite panel captured between end panels.

DRAWERS - (Standard) Front, back and sides are nominal 1/2" thick (12 mm) solid wood. Drawer bottoms are multi-ply hardwood plywood inserted into dado in front, back and sides. All drawer parts glued and stapled together.

DRAWER GUIDES - High quality epoxy coated steel, Cushion-Tec, side mounted guides, self adjusting in mounting brackets. Built-in stop, self-closing and stay-closed features with a 100 lb. rated load capacity.

HINGES - (Standard on all doors) Heavy duty, high quality steel, concealed 6-way adjustable hinge with self-closing feature. (Optional) High quality steel wrap-around hinge with self closing feature (available on standard reveal door styles only).

DOVETAIL DRAWER (Upgrade option) - Front, back and sides are nominal 3/4" thick (19 mm) solid beech hardwood with dovetail

construction. Drawer bottoms are nominal 3/16" (5 mm) multi-ply hardwood birch plywood inserted into dado in front, back and sides. Drawer bottoms are glued and stapled to sides.

UNDERMOUNT DRAWER GUIDE (Standard with dovetail drawer only) - High quality steel, undermount construction provides full drawer access. Self adjusting in mounting brackets. Built-in stop, self-closing and stay closed features with a 75 lb. rated load capacity.

SOFT-CLOSE UNDERMOUNT DRAWER GUIDE (Deluxe upgrade with dovetail drawer only) - High quality steel, undermount construction provides soft-close feature that helps reduce drawer slamming. Drawers are full extension, self adjusting in mounting brackets. Built-in stop, self-closing and stay closed features with a 100 lb. rated load capacity.

FRONT FRAME: 3/4" Thick kiln dried solid hardwood. Mortise and tenon or bore and dowel construction frame joinery reinforced with glue and nail. Stiles 1 1/2" wide. Mulls 3" wide. Rails 1 3/4" wide. Stiles and top and bottom rails dadoed to receive ends, tops and bottoms.

END PANELS:

Standard: Nominal 1/2" thick (12mm), multi-ply Type I exterior glue hardwood plywood, dadoed to receive tops and bottoms. Ends are inserted into dado in face frame and recessed 3/16" and rabbeted to receive backs.

Upgrade Option: Nominal 1/2" thick (12 mm), multi-ply hardwood plywood with oak veneer on exterior surface and birch veneer on interior surface. All end panels are constructed with the same joinery as noted above.

TOP/BOTTOM PANELS: Nominal 1/2" thick (12 mm), multi-ply hardwood plywood. Tops and bottoms let into end panels, front rails and hang rails, glued and stapled. Bottoms are supported at rear of base cabinets by nominal 1/2" thick multi-ply hardwood plywood.

HANGING RAILS: Wall cabinets: nominal 3/4" thick (18 mm) x 3" high multi-ply hardwood plywood, running full cabinet length at the top and bottom. Base cabinets: nominal 3/4" thick (18 mm) x 7 1/4" high solid pine at the top. All hang rails are rabbeted to inset in end panels and to receive backs.

BACK PANEL: Nominal 1/4" thick (5.2 mm), hardwood plywood. Securely glued and stapled to rabbets in end panels and hang rails.

SHELVES: Nominal 1/2" thick (12 mm), multi-ply hardwood plywood, 10 7/8" deep with hardwood veneer banded front edge. Shelves are fixed into dadoes in end panels on all cabinets.

TOE BOARD:

Standard: Nominal 3/4" thick (18 mm), ACQ* pressure treated toe board captured between end panels.

Upgrade Option: 3-sided ACQ* pressure treated toe board attached inside end panels, with same specifications as above.

BASE CORNER BRACES: Two 3/4" x 1 1/2" solid hardwood or hardwood plywood corner braces running full depth front to back of cabinet. All braces are glued and pinned at top of cabinet to front frame, rear hanging rails and end panels.

DRAWERS: 1 1/16" thick solid pine lumber four sided drawer box. Ends are captured in drawer side dadoes. Drawer bottoms are nominal 1/4" thick (5.2 mm) hardwood plywood dadoed into all four drawer box sides. All drawer parts are glued and stapled together.

DRAWER GUIDES: High quality epoxy coated steel, Extreme grade, side mounted guides, self adjusting in mounting brackets. Mounting brackets are screwed to solid pine back hanging rails. Built-in stop, self-closing and stay-closed features with a 100 lb. rated load capacity.

HINGES:

Standard: High quality steel wrap-around hinge with self closing feature. (Standard reveal door styles only).

Optional: Heavy duty, high quality steel, concealed 6-way adjustable hinge with self-closing feature. (Not available on Traditional birch door)

FINISH: Furniture quality protective finish system on doors, drawer fronts, front frames and veneer end panels consisting of sanding, stain, catalyzed sealer and catalyzed clear top coats. All interior end, top, bottom and back panels are finished plywood with clear sealer and top coat.

DOOR STYLE: See color brochure for availability.

Cabinet	Act	Rec. Inst.	Max	D
BLB36/39	27"	36" - 39"	40"	9"
BLB39/42	33"	39" - 42"	43"	12"
BLB42/45	39"	42" - 45"	46"	15"
BLB45/48	45"	45" - 48"	49"	18"
*BLB48/51	48"	48" - 51"	52"	21"

*Must be ordered as an absolute left or right (not reversible at installation).

Blind cabinet pull dimensions (re: hardware and full overlay door styles):

Standard overlay **without** hardware: use the **Recommended Installation** dimensions as is.

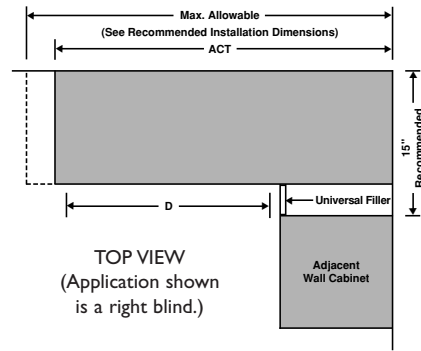

Standard overlay **with** hardware: add 1" to the minimum **Recommended Installation** dimension.

Full overlay **without** hardware: add 1" to the minimum **Recommended Installation** dimension.

Full overlay **with** hardware: add 2" to the minimum **Recommended Installation** dimension.

CUSTOM INSTALL NOTE: In Full Overlay only: Max allow pull can be increased an additional 1-3/4" with the use of the 5-3/4" filler overlay.

NOTE: To maintain equal 3" reveal on blind cabinet, to match adjacent 3" reveal on filler; always order planned installation dimension to match highest (rec. inst.) recommended installation dimension. IE: 42" planned installation dimension order BLB39/42 or BLW39/42 not BLB42/45 or BLW42/45. Filler must be used. Filler sold separately.

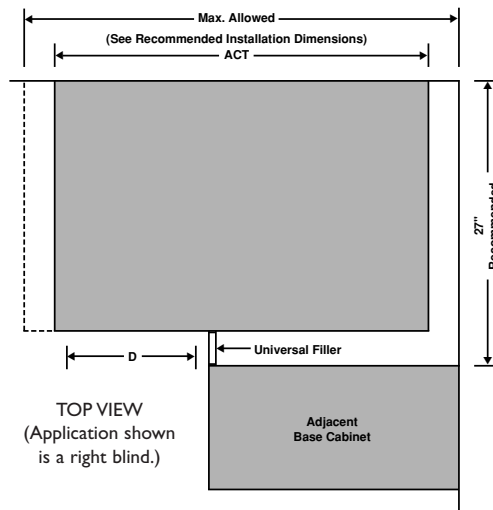

Blind Walls Legend

Act. represents the **Actual** width of the cabinet.

Rec. Inst. represents the **Recommended Installation** dimensions.

Max represents the absolute **Maximum** distance the cabinet and pull from the wall can take up. NOTE: This maximum distance includes any additional pull for hardware and/or for full overlay styles.

D represents the actual width of the **Door** opening.

Blind Bases Legend

All blind bases must be pulled from the wall (see **Recommended Installation** dimensions.)

Act. represents the **Actual** width of the cabinet.

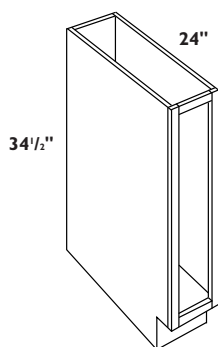

Rec. Inst. represents the **Recommended Installation** dimensions.

Max represents the absolute **Maximum** distance the cabinet and pull from the wall can take up. NOTE: This maximum distance includes any additional pull for hardware and/or for full overlay styles.

D represents the actual width of the **Door** opening.

								N	no wall (Family Chef)

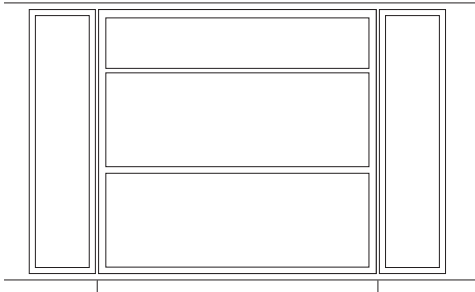

NOTE: A key element to ChefCenter™ is the pot and pan storage capability of the drawer base cabinet (DB30 or DB36) that will be used as the base for a cooktop appliance. If your project includes a free standing range appliance, you have two options:

1. Use this guide and include a drawer base cabinet with your order and place elsewhere in the kitchen convenient to the cooking area.
2. Order ChefCenter™ components separately from our catalog. Please use the part number diagram in the guide to individual component nomenclature.

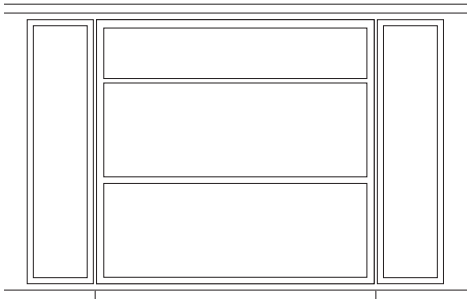

BASE CABINET SIZE OPTIONS

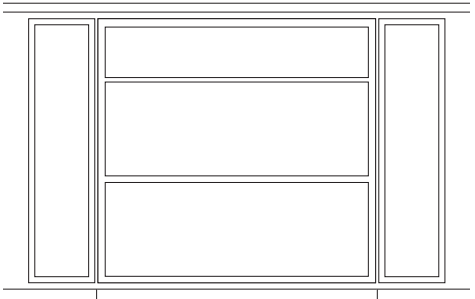

36" WIDE CONFIGURATION
 Consists of a 30" base cabinet
 with (2) 3" pullouts

42" WIDE CONFIGURATION
 Consists of a 30" base cabinet

WARRANTY

LIFETIME LIMITED AND LIFETIME 5-YEAR WARRANTY

This warranty is effective on Armstrong Cabinet Products purchased after July 1, 2002 and is subject to the limitations, exclusions, disclaimers and procedures set forth herein.

WARRANTY COVERAGE – Five Year Limited Warranty on Cabinets. These Armstrong cabinets and related cabinet work manufactured and assembled by Armstrong are warranted to the original purchasing consumer for five (5) years from the date of original purchase or as long as the original purchasing consumer owns the home, whichever is less, against avoidable and unnatural defects in material and workmanship under normal use.

Lifetime Limited Warranty on Drawer Guides and Hinges. Armstrong warrants to the original purchasing consumer, for as long as they own their home, that the drawer guides and hinges shall be free from defects in material and workmanship under normal use.

WARRANTY EXCLUSIONS – THIS WRITING IS THE COMPLETE AND EXCLUSIVE STATEMENT OF THE EXPRESS WARRANTIES PROVIDED HEREIN AND IS IN LIEU OF ALL OTHER EXPRESS AND/OR STATUTORY WARRANTIES BY THE MANUFACTURER, TO THE EXTENT PROVIDED BY LAW. THERE ARE NO IMPLIED WARRANTIES EXTENDING BEYOND THE TERMS OF THIS WARRANTY. ARMSTRONG SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL COSTS, EXPENSES OR DAMAGES. Some states do not allow limitations or exclusions of incidental or consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights, and you may have other legal rights which vary from state to state.

WARRANTY LIMITATIONS – This warranty does not cover problems caused by improper installation of cabinets, cabinetwork, drawer guides or hinges. This warranty does not cover any product used or installed in connection with cabinets, such as gas or electric appliances, countertops or plumbing fixtures. This warranty does not cover damage caused by transportation, storage or exposure to excessive temperatures or to defects arising from misuse, neglect, accident, alteration, improper use or care or failure to maintain. No installer, retailer, distributor, agent or employee of Armstrong has the authority to alter the obligations or limitations of any Armstrong warranty.

WARRANTY DISCLAIMERS – This warranty is not transferable. Wood characteristics naturally occurring such as variations in color, grain, mineral streaks and knots are not considered defects. Color variations in cabinets are a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. For these reasons, new and/or replacement cabinets may not match display samples and/or existing cabinets. Such variations and changes are not considered defects.

WARRANTY PERFORMANCE – If a manufacturing defect does occur within the terms and conditions of this warranty such defective part will be repaired or replaced by Armstrong, at its sole option. Armstrong will not provide or pay for the cost of removal of defective product, transportation of defective, repaired or replaced product or installation of repaired or replaced product.

WARRANTY CLAIMS – To submit a claim under this warranty, please write: Armstrong Cabinet Products

16803 Dallas Parkway, Suite 200
Addison, Texas 75001

TERMS AND CONDITIONS FOR ALL SALES OF GOODS

These terms and conditions are for Kitchen Cabinets, Vanities and Accessories sold by Armstrong Cabinet Products. Armstrong assumes no obligation to sell to anyone at any price any of the items listed herein.

All specifications herein set forth supersede all prior specifications and are subject to change without notice. Armstrong may also, from time to time, discontinue without notice the sale of any of the products listed herein. Armstrong may also, from time to time, make changes without notice for any of the products listed herein.

All sales of goods by Armstrong Cabinet Products are made subject to terms and conditions printed below, in its bulletin and on its acknowledgement of order, invoice and quotation forms. These terms and conditions are as follows:

CONTRACT WITH BUYER. – Acceptance of Orders. Orders will be accepted only by Armstrong's usual acknowledgment of order containing terms and conditions applicable thereto. No terms and conditions appearing in a Buyer's order that are at variance with Armstrong's terms and conditions shall be binding upon Armstrong unless specifically agreed to by it in writing. Unless Armstrong specifically so agrees in writing in acknowledging any order, any terms and conditions appearing in a Buyer's order contrary to those stated herein and in such acknowledgment of order are to be deemed waived by the Buyer. Receipt by the Buyer of the acknowledgment of order without prompt objection to the terms and conditions therein and herein set forth, constitutes acceptance by the Buyer of such terms and conditions.

Cancellation of Orders. After Armstrong's acknowledgment of order has been issued, an order may be modified or cancelled only upon written agreement by Armstrong. Orders for goods other than those of standard manufacture will not be cancelled after a commitment has been made or production scheduled.

Credit for Returned Goods. Merchandise may not be returned for credit unless Armstrong has agreed to accept it. Where returns are accepted, Armstrong may at his option make a deduction of 10% for rehandling. All transportation costs for returned goods must be paid by the Buyer. In any event, only salable merchandise of standard manufacture may be returned for credit.

Credit Approval. Buyer's orders are accepted subject to credit investigation and approval, and delivery may be withheld or shipment stopped in transit on accepted orders without any liability on Armstrong's part, if in its opinion, the Buyer's ability to pay for the merchandise on these terms and conditions is in doubt.

PRODUCT AND PACKAGING CHANGES. – Factors beyond the control of Armstrong and the need for continuing improvement of product require the making of changes from time to time in products and their packaging. The right is reserved to make reasonable changes of any kind without notice and to deliver revised designs or models of goods against any order unless on the face of the acknowledgment of order this right is specifically waived.

SHORTAGES OR VARIANCES. – No claims for variances from or shortages in orders will be considered unless presented within 5 days after receipt of goods. A signed delivery receipt will indicate a complete shipment with no shortages.

DELIVERY. – Transportation Risks. Delivery to the initial carrier shall constitute delivery to the Buyer. Armstrong's responsibility ceases upon delivery in good order to such carrier; and all goods are shipped at the Buyer's risk.

The Buyer is urged to examine all deliveries carefully before signing transportation receipts. If goods are visibly damaged, the Buyer should insist that written confirmation of the damage be noted on the freight bill or dray ticket by the agent of the carrier. If damage is discovered after unpacking, the carrier should be notified at once, so that inspection can be made and the claimed damage substantiated by the carrier.

Interference with Delivery. Armstrong has no obligation to deliver goods against any order until it has accepted the order by issuance of its acknowledgment of order. In any event, Armstrong will not be liable for any delay or failure in the delivery or shipment of goods against an accepted order or for any damage suffered by reason thereof, when such delay or failure is, directly or indirectly, due to accident (in manufacture or otherwise), fire, flood, riot, war, embargo, labor stoppages, inadequate transportation facilities, shortage of material or supplies, delay or default on the part of its vendors, regulations by Government authority, or any like or dissimilar cause or causes beyond its control.

PRICE. – Goods sold by Armstrong will be billed to the Buyer according to the prices and terms contained in its current bulletins and price books. In the case of orders for goods for which no price is currently in effect, the price will be determined by Armstrong and set forth in the invoice issued after shipment of the goods.

Taxes. Any tax or other Government charge now or hereafter levied upon the production, sale, use or shipment of goods ordered or sold, will be charged to and paid for by the Buyer.
